DETAILED ACTION

Response to Amendment

1. The amendment filed 9/22/2005 is objected to under 35 U.S.C. 132(a) because it introduces new matter into the disclosure. 35 U.S.C. 132(a) states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: causing the controller to navigate "up and down" through "multiple" stages of a hierarchical menu structure "to activate a plurality of selected features in a predetermined sequence". The specification does mention avoiding navigating through multiple stages of a hierarchical menu structure in order to activate multiple features, however, it can not be assumed that the various features must be accessed by navigating up and down through the menu structure. Therefore, the rejection in the previous Office Action stands.

Applicant is required to cancel the new matter in the reply to this Office Action.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 2681

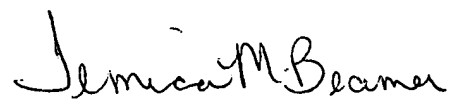

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
